370	311 (limited search, see search history)	11/13/2008	PC

SEARCH NOTES		
Search Notes	Date	Examiner
East Search using the terms:control transmission or reception time or period or interval	11/13/2009	PC
Inventors named search on all 3 inventors in PALM	11/13/2008	PC
Search in IEEE database using the keywords, "control transmission time" and "continuous operation request"	11/13/2008	PC
Consulted 2 primaries, Ron Abelson and Steven Nguyen, in class 370 about the limitations regarding starting the transmission side's own timer in claims 60 and 79 and another limitation regarding broadcast or simplex transmission over a period shorter or longer than the intermittent cycle when a continuous operation request was received in claims 98 and 103	11/13/2008	PC
East search using the combination of: simplex, unicast, broadcast, beign, start, end, stop, transceiver, transmission/reception, transmitter/receiver, timing, timer, time, period, control, request, transmit, send, count, receive, reception, intermittent, cyclic, periodic, irregular, continuous, constant, consecutive, perpetual, continue, setting, option, preference, selection, remote, external, exterior, outside, enable, permit, off, on, disable, incapacitate, register, prolong, stable	11/13/2008	PC
East Search using the combination of above and: interval, steady, determine, check, capable, decide, detect, verify, specify, set, indicate, assign, establish, activate, operation, activity, process, service, function	11/13/2008	PC
consulted class 370 SPE, Edan Orgad, about allowability	4/29/2009	PC
search using google scholar	4/29/2009	PC
search in IEEE	4/29/2009	PC
updated East search done (see search history)	4/29/2009	PC
plus search done	4/30/2009	PC
